

# Frequently Asked Questions

# **Aluminium Verandas**

Our ethos is one of **Quality, Service and Value... Guaranteed**

Discover where high quality, affordability, and modern designs converge. Customise your own look and transform your outdoor area into a stylish and welcoming retreat. A Turkington Aluminium Veranda allows you extra space to enjoy the outdoors throughout the year in comfort.

With a Turkington Aluminium Veranda, you'll have a stylish extension of your house. In addition, aluminium is very solid, weatherproof and requires little maintenance. We use high quality aluminium and have additional options and accessories to tailor to your taste and preferences.

Turkington Verandas are designed to offer a flawless finish and an extensive range of design options. With choices like a round or classic decorative gutter, as well as half-round or square posts, the Veranda can be tailored to reflect your personal style, taste, and preferences. This ensures a perfect match with your home and garden, creating a harmonious and inviting atmosphere.

Enhance your Veranda with various optional accessories, such as a side glazing, sidewall panels, glass sliding doors, or LED lighting. These additions further personalise your outdoor space and elevate its functionality.

## Flexibility

The Veranda comes in standard widths and depths, additionally we can customise all dimensions to meet your specific requirements. Thanks to our modular system, the possibilities are endless, making it suitable for any situation and accommodating every style.

Choose from a range of elegant colours allowing you to create a Veranda that seamlessly blends with your surroundings. The polycarbonate roofing offers versatility and ensures that your Veranda not only looks stunning but also provides level of light and temperature control.

## Extensive Customisation

Our Verandas offer a wide range of design options, allowing you to personalise it with decorative gutters, different post styles, and customised dimensions. Create a harmonious and inviting atmosphere that matches your style and preferences.

## How long does it take to build?

Once an order is placed, there is an approximately 12 week lead in time for delivery. We can then install the Veranda within 1 to 2 days.
